DETAILED ACTION

Oath/Declaration

The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:

It does not state that the person making the oath or declaration acknowledges the duty to disclose to the Office all information known to the person to be material to patentability as defined in 37 CFR 1.56.

The current statement acknowledging the duty to disclose uses improper language "material to the examination" rather the required language of "material to patentability" and refers to CFR Section 1.56(a) rather than 1.56 as required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 1, the language "upstream of each stand" is considered indefinite since it is not clear as to the location of the claimed pit. For example, the specification teaches that the pits are located adjacent and parallel (see figures 1-3) to

the stand housing (Fi) and at the same time teaches that the pits are located upstream of each stand. Therefore the location of the pits is not clear as they can not be located both and if the pits are indeed upstream how are the rolls removed and replaced.

Additionally, there is no antecedent basis for "the rolling stand area".

Regarding claims 2-4, there is no antecedent basis for "the displacement area".

Regarding claims 3-4, there is no antecedent basis for "the mill floor".

Regarding claim 5, there is no antecedent basis for "the carrying rollers".

Regarding claim 7, the phrase "more or less" renders the claim indefinite since the metes and bounds of the claim can't be established.

Allowable Subject Matter

Claim 1 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Claims 2-7 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
